## HISTORICAL PAGEANT.

BEAUTIFUL COSTUMES AND A GRAND SPECTACLE.

On Tuesday and Wednesday evenings the Together and Clover Lend a-Hand Clubs presented to the citizens in Town 'Hall the "Historical Pageant," which has been the all-absorbing theme of conversation the past three weeks.

Hardly, if ever, has the stage of the hall, with its participants in the pageant. looked handsomer than it did these two evenings. The sittings of the stage were very tasty and in harmonious keeping with the varied costumes worn, The stage hangings were drapries and rugs which gave it an oriental appear-

The originator of the pageant was Miss Harriet Harris of Weymouth, who had charge of every detail, and she had Character Dance, drilled the young ladies until they had almost reached perfection.

The pageant was opened by the Greek dancers, Annie and Helen Wood and Edna Pierce, whose graceful movements and well-performed parts, won for them hearty applause and made a splendid opening for the programme of the evening. On the right of the stage, on a throne, sat Mrs. E. D. Hooker representing the Goddess of Fame, before whose presence a large number of historical characters appeared, and in both song and story appealed to her for a decission in their favor. Mrs. Hooker made an ideal goddess. Her elocution was transcendently good. Her attendant as page was Miss Dorothy Bullard, whose beautiful face and pretty pink" costume attracted the entire audience, and the Misses Mabel Perry, Marion Gray, and Constance Yearnes were heralds. The graceful and varied movements of these young misses with their trumpets, was a pretty sight, and well merrited the manifested approval by

The entrance of Hypatia and Queen Elizabeth and their graceful bows, as they paid homage to the Goddess and their appeals, won merited applause.

When Josiah Allen's wife appeared there was a storm of applause. Herremarks to the goddess were indeed comical, and the presentation of a bottle of liniment by her to Queen Elizabeth for a stiff neck, caused much merriment. The entrance of Ruth, carrying a sheaf of wheat, was certainly appropriate.

When Miss Grace Gage, as Topsy, appeared the audience seemed to go wild, and the clapping was kept up some moments. Her dancing and antics were more than pleasing and certainly comical, and she was recalled.

Miss Adele Fitzpatrick as Mary Queen of Scotts next entered, with her attendant, Miss Nina Winn, and very gracefully did she carry out her part.

Alma Noves, as Gypsy Queen, danced in true Gypsy style, her graceful movements being commented on largely. Helen Damon, as Joan of Arc, added a radical change to the costumes already worn, and looked very pretty indeed in her soldierly dress. Sappho, Pocohontas and Grace Darling all received well deserved encores. Mrs. Partington and son Ike caused a

round of laughter. It was a comical sight to see Mr. Bullard brought in by the ear by Miss Heard, who took her part to perfection. Mr. Bullard is an excellent amateur comedian, and his part was excellently played. Topsy and himself seemed to enjoy each others company first rate. Helen Learned, as Queen Isabella of Spain, was very graceful. Beatrice Spurr won a hearty encore for her most excellent dancing. Mabel Babson, as Bridget O'Flanagan, in her appeal to the Goddess for a situation, was well taken and Topsy again had some more fun with the contents of her satchel. The trio took the audience by storm, and they added touch, in a patriotic way, to the when Mrs. Dr. Dennett and her maids appeared with their tambourines, their with her new possessions, Cuba, Porto of the spring town meeting. Rico and Hawaii. The singing by Florence Stowe in the part of Jenny Lind was charming, she having a sweet and clear soprano voice, and was recalled. The crowning of Columbia by the

Goddess brought the evening's entertainment to a close. All the participants without an exception deserve great credit, and in many cases rare histrionic talent was developed of

The Board of Directors held its regular meeting Tuesday December 6. Miss Turner secretary of the New York Society for the prevention of vivisection, spoke for a few minutes at this

#### HISTORICAL MEETING. -

Last Monday evening the Arlington Historical Society met in Pleasant Hall on Maple street, and after a short business meeting gathered to listen to an address by Mr. E. N. Blake. Mr. E. S. Fessenden, the president, introduced the speaker. Mr. Blake gave an interesting talk on the history of the Arlington Baptist Church, which was organized in 1780, of which we only give a short outline, as his remarks were mostly from the church records.

On September 4. 1780 the first recorded meeting was held, when the Society articles were signed by 39 members, these articles were re-modelled with 61 signers on December 20, 1895. On March 19, 1781, the society pur-Next Thursday evening, at 7.30 chased the house of Capt. Benjamin o'clock, the town meets for the discus- Locke for 100 "hard dollars," 'he to sion as to whether or no the town will have the chimney." On March 29, 1790, vote to provide funds for the entrance Ephraim Cook donated 5 rods square of into the Metropolitan water district. land for a site for a new meeting-house. (the-N. E. corner of Mass. Ave. and Article 2. To see if the town will Brattle street), the house still remaining vote to appropriate the sum of \$15,000 there. On October 19, 1790; the society for the purpose of making the cash pay- voted to sell the first house (on Appleton street, nearly opposite Acton streee, chusetts, authorized by the town, by its vote passed November 29, 1898, to be made, as part payment of the total sum occupied by Mr. Barker) for "ninety to be paid to the Commonwealth for the hard dollars." On September 9, 1828.

December 15 there will be a large attendance of citizens and voters, as this matter concerns all property owners, as well as the citizens in general. If "competition is the life of trade," then let us h ve competition.

#### ARLINGTON BOAT CLUB. The ladies' night on Monday evening,

proved to be a very pleasant affair. Some 200 gathered in the main room to hear the Elmwood trio. Certainly the club did appreciate the trio's efforts in trying to please in every possible way the large audience gathered to hear them. Mr. A. L. French, the talented humorist and imitator, proved to be the drawing card of the evening and kept his audience in an uproar of laughter with each of his selections: His impersonation of various characters was good and well deserved the hearty encores which he received. His polyphonic imitations of a chicken, scissors grinder, pigs, and the phonograph, were about the best we ever heard in this line. Miss Laidlaw sang two solos with fine effect and was recalled on the second. One rarely hears so fine a violin soloist as Miss Purrington, Her Fantasia, and Mazourka, were executed with great skill, showing that much study had been required to bring her music up to its present high standard of excellence. Mr. Charles Carter, and Mr. Alexander Livingstone showed great tact in procuring these artists for an evenings entertainment. We give the full program:

#### WHAT WE EXPECT.

In view of the leading editorial in this issue, it is entirely proper that we write of what the Arlington Enterprise will expect of the town officials by way of advertisements. We do not claim to own the earth or even the town, yet we do claim to be one of its citizens, and to be a factor in every material interest belonging to Arlington. We claim, and rightfully so, that a fair and portionable share of the public money, expended for official advertisements and announcements, should come to the Enterprise. This we shall expect from now on; and we do not question, that our town authorities will see that we have our part of the town printing. While we do not ask for the lion's share we do insist upon an equal share of the official patronage of the town being given us; and in this direction we shall not fail to look zealously after our rights as a public representative of the people. And in this connection we respectfully solicit advertisements and announcements from our business, men and those in professional life, who are accustomed to make their wants known through the local newspaper. Remember, we say again, that we are here to stay, so that you will find us every day in the week at 620 Massachusetts avenue, over Tilden's drug store, doing our variety of work with neatness and dispatch, and at reasonable prices. Send in your orders.

#### TO SIZE UP YOUR MAN.

To accurately size up your man, you risky business to judge one by the of the Children." we wrote as follows: latest style of coat he may happen to wear, or by the swell-front house in

which he may happen to live. Real manhood and real womanhood consist in the virtues, and the virtues, it must be remembered, are an inward possession. We too frequently apply our mathematics in an illogical way, when we come to estimate character. The attempt to build up men and women by outward additions, which ten, substantially amounts to nothing. To know your man, you must know him | Children Concering the Origin of Life?" as he is not as he seems. It is not alnumber up and down the streets everywhere, seeking whom they may devour, facts of life." He is only the shadow of a man who represents a minus quantity whenever you divest him of his earthly possessions. apart from their obsective surroundings. And yet many of us keep right on toadying to this one and that one, simply bewhen were you to draw upon that which lead in relation to their being. belongs to mind and heart and soul, you would find him hopelessly bankrupt. We know many a one who calls himself a man, who should have found his resting place long ago in the village

## NO APOLOGIES NEEDED.

church-vard, and would have his place

there, had it not been for that heathen-

ish custom of society which allows a

man, although dead to all good intent

and purpose, to go unburied. Let us

not be deceived; a live, earnest man is

only to be considered such as he shows

himself in accord with all that is noble

form is only a mockery of and a bur-

lesque on the real man and woman.

The Enterprise has no apologies to offer for its birth into the world of journalism. It came into active, legitimate life with its boots and spurs on, ready for all manly and aggressive work in its field of labor. We carefully surveyed the field before issuing our first

We took into consideration the fact that several attempts had been heretofore made in the publication of a journal in addition to the one established so many years ago, and we were quite aware that every attempt made in this direction had proven a failure. This much we say, that the people of Arlington may understand beyond the possibility of a doubt, that we have not undertaken this new journalistic work of ours without having first counted the cost. While it is the most natural

way, that this paper has come to stay, seven thousand lots remaining to be of the Word." Our coats are off and our sleeves rolled thrown upon the real estate market. up for whatever may come in shape of Cipher it out, High School boys, and the hardest kind of work. Our hands to il us how it is? once to the plough, we shall not be caught looking back. As we have said in previous issues, the Enterprise shall be an aggressive sheet. There will be nothing in the form of public discusston; affecting the public interest, in which it will not readily engage. It will show itself at the front every time; and in spite of whoever the enemy may be, it will not budge an inch from any position which is known to be right. Shot and shell sent forth with whatever force, and this too it may be through the firing of smokeless powder, will invariably find the Enterprise-facing the music. In a word, the Enterprise will never show the "white feather." It will dare to lead, wherever duty calls. It will never lie upon its oars that it may learn the popular will. It will do with his hands in his pockets waiting its own thinking, and in no instance for something to turn up, will sooner or will it fail to speak for itself. All the later get run over by the procession. while, however, the Arlington Enterprise shall be, as we have previously announced in these columns, a medium for the expression of private and public thought. This journal will never have on hand reserved seats for the few. The poor man will find with us his swing of the pen as available as that of the man of wealth; and what is more, however opposed to our own personal views, the contribution of anyone so differing from us, will find ready publication in this journal.

We thus desire to underscore the basal thought and purpose we have in our own department of journalism; and we equally desire that the people of Arlington and those in near neighborhood, may always rest doubly assured that the Enterprise is theirs, wherein they can speak, as it seemeth best to them. Yes, the Arlington Enterprise has come to stay. We are on our home ground, and here we shall stick, so please govern yourselves accordingly.

#### "ONE QUERY."

In the closing paragraph we had in last week's issue of the Enterprise, of need to get inside of him. It is an editorial headed, "The Education

> "One query, however, at this point, forces itself upon us, namely: while we are for the most part true in all the instruction given the child in relation to the natural world, why should we be so misleading in all the information we give the children of whatever pertains to the origin and development of the human species? Let us be true in alt

#### ARLINGTON AS A-HOME.

Arlington as a home for the business man of Boston can hardly be excelled for its natural and acquired advantages. Its near and convenient distance from the city, makes it easily accessiable to the metropolis. Its public schools are up in all that is modern both in subject matter and in methods, to the best preparatory schools in the state. Its streets are metropolitan in their make and maintenance, while its drinking and worthy in life. A sham in human water is soon to come from the Metropolitan system of water.

All the religious denominations are here represented in the several churches, ability and culture. The people of J. Savage. Arlington are distinguished for that refined social life which gives, character

Boston has no suburban town more attractively situated than is Arlington, and that this fact is so generally admitted, is seen in the rapidly increasing numbers coming from the busy town here to make their homes. The future of Arlington is assured, and especially so, as her people are so mindful of the future, and so far-seeing and generous in providing for it. Take the advice of the Enterprise, and so visit Arlington in a home.

#### WHO BELIEVES IT?

Who believes the statement which thing in the world that here and there declares that if the entire population of for schools. The result was a curious happiness, first to himself, and next to science burst forth and dispelled the one of little faith should more than the earth were set apart into families in fibe. A few years ago a committee was appointed in Chicago to revise the Bible hint that the Arlington Enterprise must each, that all of them could find ho, 196 ended with Job. All prayers were

omitted but two, one being the Lord's man is educated, either for good or for it is our privilege and pleasure to repeat fourth of an acre each, and then the Prayer, which was set to music. It came evil, by everything that he experiences and to re-repeat, in a most emphatic state would have something more than to be known as "The Condensed Milk from the cradle to the grave." Cham-

> The schoolmaster will no longer be a drug in the market. An army of them will be required in our new possessions to constitute the advance - guard of civilization. Their first duty will be to teach the ignorant children of the wilgentlemanly clerks deserve much credit derness the use of clothes, soap, and medicine. Until this has been done keep the missionaries at home, where there is greater need for their services.

Whether for better or for worse, for good or for evil, Senator Proctor of Vermont may safely be credited with having done more than any other man, probably more than any five men, to precipitate the late war with Spain. The transparently-mercenary and the impassioned character of the philippics The man who gets there is he who is delivered by Senators Thurston and Gallinger rendered them comparatively

"Dixie land" is a fabulous realm of peace, plenty, and indolence, whose charms form the burden of many negro meledy. Mr. Dixie, whose name has been thus embalmed, was a slaveholder of Manhatten Island, compelled by public opinion to remove his human chattels to the South. In their new homes they often sighed for their old home at the North, which lapse of time invested with the halo of a paradise, Thus "Dixie land" became to the entire colored race a species of Utopia.

It would be an indication of an approaching millenium if the school committee in cities and towns could be taken out of politics and politics could be taken out of the school committee; but when we see the devotees of antipolitics dividing their forces into many parts, we are led to think that the blissful day is still remote, and we are reminded of the futility of the anti-Tammny fight in the late Greater New York election.

Everyone has learned some time in his life that mental fatigue causes di minution of efficiency, however temporarily balanced by the improvement through exercise. Physical exercises have been introduced as a defence to the childish brain against the imminent dangers of a constant mental tension by alternating mental and muscular exertion. But these can operate only as re laxations within certain narrow limits. It is fundamentally false to regard physical effort as in any way a suitable preparation for mental labor.

Bear in mind that the Enterprise is the only paper in town that offers an emancipated from the caprice of any one man or one newspaper. If William results of your experiment. Patterson is struck in future, he knows where and how he can strike back. The Enterprise does not invite or encourage quarrels, but it is determined to give all a fair show. Now all who broad shallow dish (e. g. a saucer) some believe in fair play, please subscribe for the paper, write for it, speak a good strong magnet (either bar or U-shaped ) word for it, pray for it.

Since I have been dubbed with the nom de plume, "that fellow," I have artist should be able to paint a little order that I may better understand the new degree so generously and gratiously bestowed upon me. Shakespeare says, "Alas, poor Yorick! - I knew him, Horatio; a fellow of infinite jest, of most excellent fancy." Fletcher says, "We must not call him emperor." First Count: "That's all one; he is the king of good fellows; that's no treason." Dickens: "Nay, he someon the back, and protested that she was a devilish good fellow." Suffice it to say, as the result of my researches, that I have come to the conclusion that on the whole the term fellow signifies something "devilish good," and I am going to be proud of it, though I do not quite like the ambiguity of its sex.

It is customary to state as the effi-

ciency of an incandescent lamp the watts of energy required to produce one candle of light. By increasing the voltage or electrical pressure (analogoues to pressure of gas) we increase the light more proportionally than the energy consumed is increased, and the lamp is said to be more efficient. For

example, a lamp giving 16-candle power of light at 100 volts pressure and containing 56 watts of energy is called a 3 1-2 watt lamp. If we increase the pressure to 110 volts, the candle power will be increased to 28, the energy consumed to 70 watts, the watts per candle would then be 2 1-2, and we would call & SON.. it a 2 1-2 watt lamp. There is no difference in the lamp itself between what is termed a 2 1-2 watt lamp and a 3 1-2 watt lamp. As lamps are operated at greater efficiency, their defects become more apparent, and they become correspondingly more short-lived. For example, if a 3 1-2 watt lamp would have a life of 2400 hours, at 2 1-2 watts, it would have a life of only 350 hours. An incandescent lamp may be operated at such a low pressure as to give heat but no light. At best only 3 to 5 per cent. of the energy consumed in an incandescent lamp goes toward furnishing light, the balance is wasted as heat. The problem that now confronts the elctrican is how to imitate the glowworm and fire-fly in producing a maximum of light with little waste of heat An erroneous idea prevails that incandescent lamps are free from heat. Here is an interesting experiment for our High School pupils. Place in a bowl a pint of luke-warm water. Enclose the bowl in a flannel cloth to prevent loss of heat by conduction and radiation. Place a thermometer in the water and take the temperature of the water Then immerse an incandescent lamp in the water and turn on the current for half an hour and again take the tem open door "to all. Citizens are now perature of the water and inform the public through the Enterprise of the Here is another experiment, though

not directly connected with this subject, yet it has at least a family connection Float on the surface of mercury in some bicycle balls, and hold above them a and note the systematic arrangement which they will assume.

Primitive ideas of the earth and how been studiously looking up authorities it is supported: Aristotle, who lived in the fourth century, B. C., reasoned thus: The earth evidently is in repose, Funeral designs a specialty. Flower not only because we see it to be so, but pots and Potting Loam delivered at low because it is a necessity that it should prices. be, that is, because repose is natural to the earth. The stars move around the earth, because a circle is the most perfect line and has no ends. Again, when a body has a circular motion one part of it must remain at rest in the centre; the earth is in the centre, and is thereat rest in one place without any foundation to rest upon puzzled him.

One of the most primitive ideas represented the earth as a vast plain or flat island surrounded on all sides by

universal and interminable ocean. The scriptures of Buddhism asserted that the earth was supported on twelve columns, and these columns were sustained by virtue of the sacrifices made to the gods, and that if these were not made immense tortoise, and the tortoise

Anaximander (600 B. C.) represented the earth as a cylinder, the upper face sweetness as associated with father and pupil repeat, rehearse, or persist at a clared that it floats freely in the centre lesson until it is learned." These are the of the celestial vault. Plato (400 B. C.) words of the great psycologist, Alex- declared the cube to be the most perfect tender age" in any of your city in the centre of the universe. Strabe schools, note the curriculum which he (A. D) 19) considered the form of the is hustled through in the course of five earth to be that of a cloak, measuring in short hours - the ologies, ics, and length 8000 miles, and in breath 3600 osophies-and ask yourself the serious miles, bounded by regions uninhabitquestion whether, in the language of able, on the one side by reason of exsuch a thing as "overtraining," and cessive cold. "The habitable world whether its effect be not seriously to was thus much longer from east to west whence come our terms longitude, whose degrees are counted in the former direction, and latitude, reckoned in the latter direction."

> It would be interesting to trace the the human powers." "The end of concepts of man regarding the earth education is to render the individual, down through many centuries of the as much as possible, an instrument of Christian era until the light of modern clouds of superstition and religious a | fanaticism and revealed to mankind the

veritable support through Newton's Three Laws of Motion; but I forbear, hoping that some High School pupil will take the matter up at the point where I leave it, and will not only complete the historical sketch, but will give in full the modern conception of the earth's support.

The children of the town will have to work hard from now on to January for that \$5 prize, as a neighboring town child has the lead. Don't let the prize go out of the town, children. It is an easy way to get the \$5. Call at the Enterprise office and get instructions.

The Ladies' Foreign Missionary Society of the Congregational Church will hold their regular monthly meeting Monday afternoon at four o'clock in the vestry. The meeting will be in charge of Miss Mary Hardy, and the Hawaiian manner in which Miss Gage took her Islands is to be the subject.

A few weeks ago we published a paraliable to arrest and fine. They ask the regular monthly meeting. Caterer Hardy graph about giving the store-keepers and clerks a chance to have their evenroom of the late Dr. Harris. A paper ings, in which to breathe a natural was read by Mr. Gill on "The Gospel breath for a few hours. Some little talk created regarding it at the time. which was an opening wedge. We again appeal to the citizens to try and do their shoping before 6 p. m. every day in the week except Saturday. By a little forethought on the good housewife this could be done with ease. We all wish when evening comes for a few hours of rest or a chance to go out and change the monotony of the day. The clerks cannot do this, and it is nothing but drudge along and wait upon the wants of some one who had forgotten something during the day and waited until evening before giving the order. We have seen this tried in other towns, and know it will work satisfactorily to all concerned in Arlington. Give the clerks their evenings, you can do this by sending in your orders so they can be filled before 6 o'clock. Think! there cents and is newsy. Buy it! Read it! are others who want pleasure as well as you on an evening.

Last Saturday's review of the N. V. Times had a lengthy, article, entitled "Authors at home" on our fellowtownsman, Mr. Jonh T. Trowbridge, the popular author. The article gave a graphic description of this beautiful town, dating from the time it was first named Menotomy up to the present. It also gave a most excellent sketch of the author's life, going into quite lengthy detail of his home on the Erie Canal, his present beautiful surroundings, his home-life, travels abroad, his excellent poems, and his unbounded friendship for Longfellow and other noted poets. Taking it as a whole, it was a most excellent article.

A Missionary concert was given in the Baptist church last Sunday evening under the direction of Rev. C. H. Watson and the able assistance of 'Mrs. L. J. Watkins, and 14 young ladies. Although the rain kept many away, yet to a well arranged program. The the school was nicely executed.

The exhibition of Stollwerck Bros, celebrated cocoa, will be continued next week at Yerxa & Yerxa's grocery store Post-office Building.

Mr. Joshua E. Dodge, of Milwaukee formerly of this town, and son of Mr. J. G. Dodge of Russell street, has been appointed Justice of the Supreme Court by Gov. Schofield.

On Thursday evening Arlington Council 109, K. of C., held their annual election of officers as follows:

Grand Knight, T. J. Robinson. Deputy Grand Knight, H. T. Cleary-Chancellor, Bart W. O'Brien. Financial Sec'y, James J. Mahoney. Rec. Secretary, John Leary. Treasurer, John Lyons. Lecturer, Henry Welch. Advocate, Garritt Barry, Warden, William J. Gearin. Inside Guard, Daniel O'Brien. Outside Guard, Thomas H. Welch. Chaplain Rev. John M. Mulcahy. Physician, Dr. Charles A. Keegan.

Last evening the Unitarian Club was addressed by the Rev. Thomas Van Ness of Boston on the subject of his Travels in Russia. Rev. Mr Van Ness is an exceedingly entertaining speaker. His narrative was given in simple offhand yet well chosen language and elicited The committee who had charge of the the closest attention of his hearers who completely filled the club room. His Veritas Lodge, in G. A. R. Hall on last account of his meeting with, reception Alekseevich Tolstoi was especially interesting and graphic. This distinguished philanthropist, religonist, ascetic, novelist is one of the most interesting characters of modern times. The speaker declared that the Count is a practical unitarian in his religious

Editor Arlington Enterprise:

Enclosed find \$1.00 for subscription; kindly send receipt. I wish you success in your new enterprise. It takes courage to start a newspaper, but you have a good one, and I think it is going to succeed if it continues to show the same ability as it showed in its last number. Wishing you every success, I am,

Yours truly, NEW SUBSCRIBER.

Editor Arlington Enterprise:

Enclosed find \$1.00 as my subscription for the year commencing today. It seems delightful to be able to pick up being the only one on this line who a paper which contains so much local news, expressed in such an unbiased fashion. Hoping you may be very successful in the future,

I remain yours very truly,

The "Pagent," so admirably played by our home talent on Tuesday and Wednesday evenings in the Town Hall, was a brilliant success,

It seems almost invideous that individual mention of any one taking part therein should be made, where all did so well; and yet we cannot withhold an appreciative word of the very happy part. She surely has the tact and graceful ability to become an ornament to the stage, were she to give herself to it. And "Ike" did much credit to Mother Partington through his manifest tone of mischief and fun. It was made clearly evident that Ike had taken the advice of his doting mother, when upon inquiry, she said to him: "Go to church anywhere, where the Gospel is dispensed with." for certain it is, that the precious boy revealed in his part none of the Sunday school going youngster. But as we have already said, all did admirably well."

Much credit is due those who had the management of the entertainment.

All were enthusiastically pleased, but

none more so than

A LOOKER-ON.

The treatment of dogs in this locality and elsewhere is getting to be a nuisance, and it is hoped the perpetrators of these outrages will be caught and severely punished.

WM. ADDISON GREENE, M. D. 688 Mess. Ave., Arlington. of December 18, the subject will be "In it fails to cure, your money will be refunded by H. A. Perham, P. O. B'ld'g. A Mystery Explained.

On a certain hot summer day a celebrated naturalist entertained a company of distinguished savants at dinner, at the conclusion of which they all went

out in the garden. In the center of the grounds there stood on a pedestal a large glass globe. One of the guests happened to touch this globe, and found, to his amazement, that it was warmer on the shady side than on the side turned to the sun. He communicated his discovery to the guests, who at once proceeded to verify the statement.

What could be the cause?

An animated discussion ensued, in the course of which every imaginable law of physics was made to account for the strange paradox. At length our scientists agreed that it must be so owing to the laws of reflection, repulsion or exhalation or some other law of physics with a long name.

The host was, however, not quite convinced, and, calling the gardener, he said to him:

"Pray tell us why the globe is warmer on the shady side than on the side turned to the sun?"

The man replied:

"Because just now I turned it round for fear of its cracking with the great heat."-London Tit-Bits.

#### Primitive Artillery.

As to the character of the first instrument for the throwing of missiles and just when it was invented we have no certain knowledge, but it must have been at an early date, for we read in Genesis x, 9, that "Nimrod was a mighty hunter before the Lord," and surely the skill that has kept his name in remembrance for thousands of years must have been gained by the use of some surer weapon than the clubs or stone knives of primitive man.

Without doubt man early learned how much execution can be done by a well aimed stone, and attempts to hurl it with greater force and accuracy probably led to the invention of the sling, one of the simplest as well as most formidable of these early weapons. most formidable of these early weapons. It was long one of the principal instruments of war among the ancients, and the story of David and Goliath is a good illustration of what could be done by ever, could be acquired only by early HOLT. and careful training.

In the Balearic islands, it is said, in ancient times the parents suspended the dinner of their boys upon poles and required them to bring it down with slings before they were allowed to eat. -Lippincott's Magazine.

#### Stories of Curran.

Curran could say mordant and cutting things, but perhaps no man was ever insulted with such dialectical neatness and ingeniousness as Curran was by the famous maker of "bulls," Sir Boyle Roche, in the Irish house of commons. "The honorable gentleman says he is the guardian of his own bonor,' said Roche in reply to a speech of Curran, "but on the other occasions I have heard him boast that he was an enemy of sinecures."

Curran was defeated in a conversational contest with Lady Morgan, the drawing room, when, exaggerating the prevailing fashion in short sleeves, she wore merely straps over her shoulders. Irish novelist, one evening in that lady's drawing room, when, exaggerating the Curran was walking away from the little party who witnessed the conflict of the two wits when Lady Morgan called out, "Ab, come back, Mr. Curran, and acknowledge that you are fairly beaten." "At any rate," said he, turning round, "I have this consolation, Lady Morgan that you can't laugh at me in your

#### Portrait and Slipper.

A touching anecdote, associated with a picture in the National gallery at Edinburgh, is told by an English lady in her book, "Potpourri From a Surrey Garden." She writes:

Several pictures stand out with peculiar interest, especially the life sized Gainsborough of the young Mrs. Grahame. She sat for the picture as a bride, but before it came home she was dead, and her husband had gone to the

When he came back, he never had the courage to open the case which con-We solicit your patronage tained his young wife's portrait. On his death, many long years after it was and extend to you a cordpainted, it was opened by his heirs, ial invitation through the and inside the case was the little white slipper she had left with the painter to columns of the Enterprise help him to finish his picture.

The portrait was given to the Edin-burgh gallery, and the slipper was kept moth salesrooms. by the family.

#### The Scallop.

The scallop accomplishes locomotion by a series of leaps. When it is alarmed, or wishes to change its location, it opens and energetically closes its valves, thus expelling the water. The reaction shoots it backward. By this means the creature is able to travel long distances. Sometimes scallops make and considerable journeys in large companies. One can scarcely imagine s panies. One can scarcely imagine a lovelier sight than that of a flock of Upholstery these pretty creatures, with shell of every hue, from purple and white to black, enlivened with shades of pink, yellow and fawn, darting about in clear water. In their flightlike movements, vertical, horizontal and zigzag, they are more in Swan's suggestive of a flock of winged animals horizontal and zigzag, they are more than of bivalve mollusks.

#### Ice In Polar Regions.

When the sea freezes, first is formed the thin flake called by navigators "sludge," and as soon as this catches and holds snow it is termed "brash." When it gathers and doubles, the whalbeing put in, and the dedicatory exercises will take place at an early date. boundaries are the limit of this, it will be "a floe," and an "icefield" if its

"Pack ice" consists of floes forced together and overlapping, and when this again becomes broken and scattered by a new wind the name of it is "sailing ice."

Fall and Winter Flannels

LEXINGTON.

The annual ball of Independent Lodge, A. O. U. W. will be held in Town Hall

The Baptist Social Circle will hold a social and supper in Emerson Hall, East Lexington, next Wednesday eve-

the evening of December 15.

The electric road bobs up again. It is evident the company intend to make some kind of a start in the near future' and it cannot be made too quick.

Mrs. Francis Wyman was found dead at her home by Mr. G. F. Harrington, Wednesday afternoon. He notified Officer Franks, who notified Medical Examiner Blake of Woburn. For a number of years Mrs. Wyman Mas resided alone, ever since her husband's death.

An excellent showing was made by the Junior C. E. at Hancock church on Monday afternoon, with their sale of household and other articles, and the Marash mission in Turkey, will be \$25,00 beeter off.

A kettle of tar was overturned yesterday by the carpenters, at work on Mr. Sherburne's building on the avenue, setting fire to the building, but it was put out before any damage was done. Hack and Livery Stable, The department responded promptly.

Chief of Police. C. H. Franks and Patrolman William B. Foster visited Cambridge Saturday, and arrested Stephen Polk, a young fellow of that city, charged with breaking and entering the railroad station at East Lexington and Pierce's Bridge in September last. The fellow has been away since that time, and has eluded the officers. The officers succeeded in recovering some of the property taken. The prisoner was taken to the Concord District Court for trial Monday morning.

The funeral of Miss Jane Kavanagh, sister of Rev. P. J. Kavanagh, pastor of St. Bridget's Church, was held from the lengths for sale at re= parochial residence on Monday. A large congregation was present at the services, which were held in the church at 9.30. A high mass of requiem was celebrated. The officials of the mass were Rev. Lawrence O'Toole of West Newton, celebrant, Rev. Wm. Joyce, O. P., of Lowell, deacon, Rev. Edward Moriarty of Concord, subdeacon, Rev. Edward J. Growe of Maynard, master of ceremonies. Other clergymen inside the sanctuary were Rev. Fr. Ready of St. Catherine's Church, Charlestown; Rev. Fr. Lawrence, O. P., of Lowell and Rev. P. J. Alley of Salem. Schmidt's requiem mass was sung by the choir, under the direction of Miss Melina J. Hureau, musical director of the church. The "De Profundis" and "Cross and Crown" were sung by Mr. Thomas A. Dineen of Arlington, baritone soloist. The choir was also assisted by Miss Kate McGrath of Arlington, Mrs. Dr. H. Kane of Lexington, and Miss Raymond of Boston. The pall-bearers were John McGrath of Arlington, Robert O'Brien of Somerville, William Kelley, William Read of Cambridge, Patrick Ryan of Lexington and John McGoveru of Bedford. The interment was at Malden cemetery.

THE FATE OF THE ROSES.

["My love is like a red, red rose,"] ▲ white rose, she, and a red rose, he, Were summering in a garden. He breathed his love; she smiled and blushed. The standing of the home team is as

Then he softly begged her pardon.

A cloud in the sky, a sigh in the wind, A butterfly comes and goes, Daintily kissing the pure white lips, Ignoring the jealous red rose.

From the east, from the west, night's shadows

The stars shine forth in glory.

Neath the moon's phie light the roses kiss.

'Tis only the old, old story!

So the red rose, he, and the white rose, she, Cling closer and closer together, Till side by side at last they are one

In sunshine and stormy weather.

—Boston Transcript.

## A BUNCH OF ROSES.

said as Joan took a small bunch of cried. primroses from the table.

into her eyes.

"Nonsense. Besides," Joan added, 28 Moore Place, Arlington you oughtn't to say so."

"Why not?" he demanded, coming

"It isn't expedient."

Joan sighed as she looked down at

me very shabby?" she murmured. "Why?"

rid of me"- he exclaimed, taking his hat and stick.

"Yes, I do," she insisted, and she flung the primoses carelessly on the ta-

ing glance. 'They will do for me," he said, tak-

"Certainly not," Joan cried, holding

"Lord Roper is coming," she explained, with a fine blush.

tle petulantly. ... "Anyhow I've often been in the same

room with Roper before," Reginald "Yes, but"-

"Of course, if you really want me to go,'' said Reginald.
"Oh, I don't know what I want!"

she cried, leaning back in her chair. "Let me offer my advice, Joan," urged, with a hand on the back of her

She raised her chin, looking up into his face.

His hand chanced to touch her fair brown hair.

"Has Roper"-"Yes," she said quickly.

over the back of her chair, "you're not'

"Yes," she murmured, "I think I am, Reggie."

After a short silence, during which she stared very hard at the bunch of

"You'll be awfully miserable." "Oh, I don't know!" she said.

"Just for an hour, perhaps," she re-"Well?" he said.

"If I weren't a wise woman, youwe-might be miserable longer, you Joan.

"I should like to take the risk," he muttered. "Of course, I haven't got

£10,000 a year"-"Poor old Reggie! No, you haven't."

"Oh, that's a libel!" she cried, sit-ting upright. "Besides, one can't al-

ways please onesalf."
"I don't see why—if it would please

how," she retorted. "The greatest nuisance in the world are one's relatives," cried Reggie.

"Now if you were an orphan"-"I'm happy to say I'm not." "Still, one can't marry only to please

"Oh, well," he said, and walking slowly away from her chair, Reginald took his hat from the table again. He steed for some time staring into its lining, and then he sighed.

"I suppose I may as well go," he suggested. "It is growing late," Joan murmured.

"I thought it was half past," she said.

"Not that I'm in the least hurry," be answered.

"But, then, Roper will be here," he

"Joan, I don't believe you've made up your mind yet.'

"I always like to look before I leap," she insisted "Yes, it's an awful plunge," he said,

"You see, Reggie, there's an applaud-

ing crowd watching to see me take it." "It would be an awful sell for them, wouldn't it?" he suggested, putting

"It isn't too late," he insisted.

"Too late?" "Joan," he whispered, and he cap-

tured the hand which held the bunch of primroses. "Dearest, we're at the parting of the ways."

"Oh, please don't be tragic, Reggie!"

"We can go together, or we can-we can do the other thing."

"I don't think I can," she said. "Why not?" he whispered. "I-I'm just a little afraid."

"But I shall be there, dear. A rather rough road-perhaps-at first, but together, you know.'

"All my people"-Reginald astonished her by the bluntness of his retort. "You oughtn't to speak like that of

them," she said reproachfully.
"No, I oughtn't," he admitted. "But what I say doesn't matter. The

word is with you." "How often have I said it!" she

"But this time there seems a kind of finality about it," he said ruefully, and as he spoke a hansom drove up to

the door. "That is Lord Roper," she exclaim-

ed, darting to the window. "Am I to go?" he asked.

"Oh, please"-

his hat again. "You will meet him on the stairs." she cried as Reginald stepped toward

"I will stay if you like," he offered,

"Oh, very well?" he said, turning "Perhaps you had better," she ex-

"Yes," he said, meeting her half

"If you care for the primroses"-"I do," he returned. "Shall I"-

Lord Roper entered with the air of a

successful wooer, but seeing Reginald he appeared ludicrously astonished. He "Those are the first primroses I have

seen this year, " he said. "Harbingers of spring," remarked Joan, with a smile.

"You attach a great significance to them, then, Miss Joan?" continued Roper coally "Oh, yes; I am not like Peter Bell,"

"I am afraid I can't stay to see your people after all," said Lord Roper. "I am like the frishman," he continued,

with a smile; "I am here only to say I couldn't come." "I am sorry, Lord Roper." "Oh, well, it is the fortune of war,"

cried, with a rather apprehensive glance at Reginald, "and," she added, "there

"He bears it well," said Reginald as the door closed. "Bears what?" Joan asked, with a

"I suppose it was the primroses," she

"He brought them from Roper Park this morning," she said, and Joan sighed again.

"Roper is not a bad sort of fellow."

he remarked. "Oh, I respect him immensely!" cried

quickly. "The spoils to the victor, you know,"

said Reggie, and he took her hands. 'Are they worth having?" she whis-

"Darling"-"And yet"-"Yes?" he said, as she stopped.

"I-I hesitated, Reggie, dear," she murmured, drooping her eyelids. "Still, you were not lost," he murmured, drawing her closer.

said. "If you had not come"-"Well?" "I might have been tempted"-

"Never mind the might have been, Joan," he urged. "And yet I"-

"Oh, you know!" she said, hiding her face against his coat.

"Of course"-"That is all I want!" he cried .-Thomas Cobb in Black and White.

"I can hardly believe the statement of that fellow who said one trolley car could not hold all the women he has married.'

"I do. There might be room for them, but I don't think it could hold them when they got started to discuss. ing the situation."-Cincinnati- Enquirer?

"Don't you think that fellow who broke his engagement because the girl

that would be wanting her husband to keep an account of his private expenses."—Indianapolis Journal.

"The first I have seen this year," he

"Very," said Reginald, looking full

"I wish it were lawful," he said.
